

Payroll Processing – Direct Deposit

Even though you move from contract to contract, MATRIX treats you like a permanent employee. You do not have to worry over when your client is going to get around to paying you; you receive – on time – every two weeks, a paycheck from MATRIX. We take the responsibility for billing to and collecting from the client and for deducting the necessary federal, state, and local taxes from your paycheck.

Direct deposit is also available for even quicker access to your money.
